

Bag Claim Art

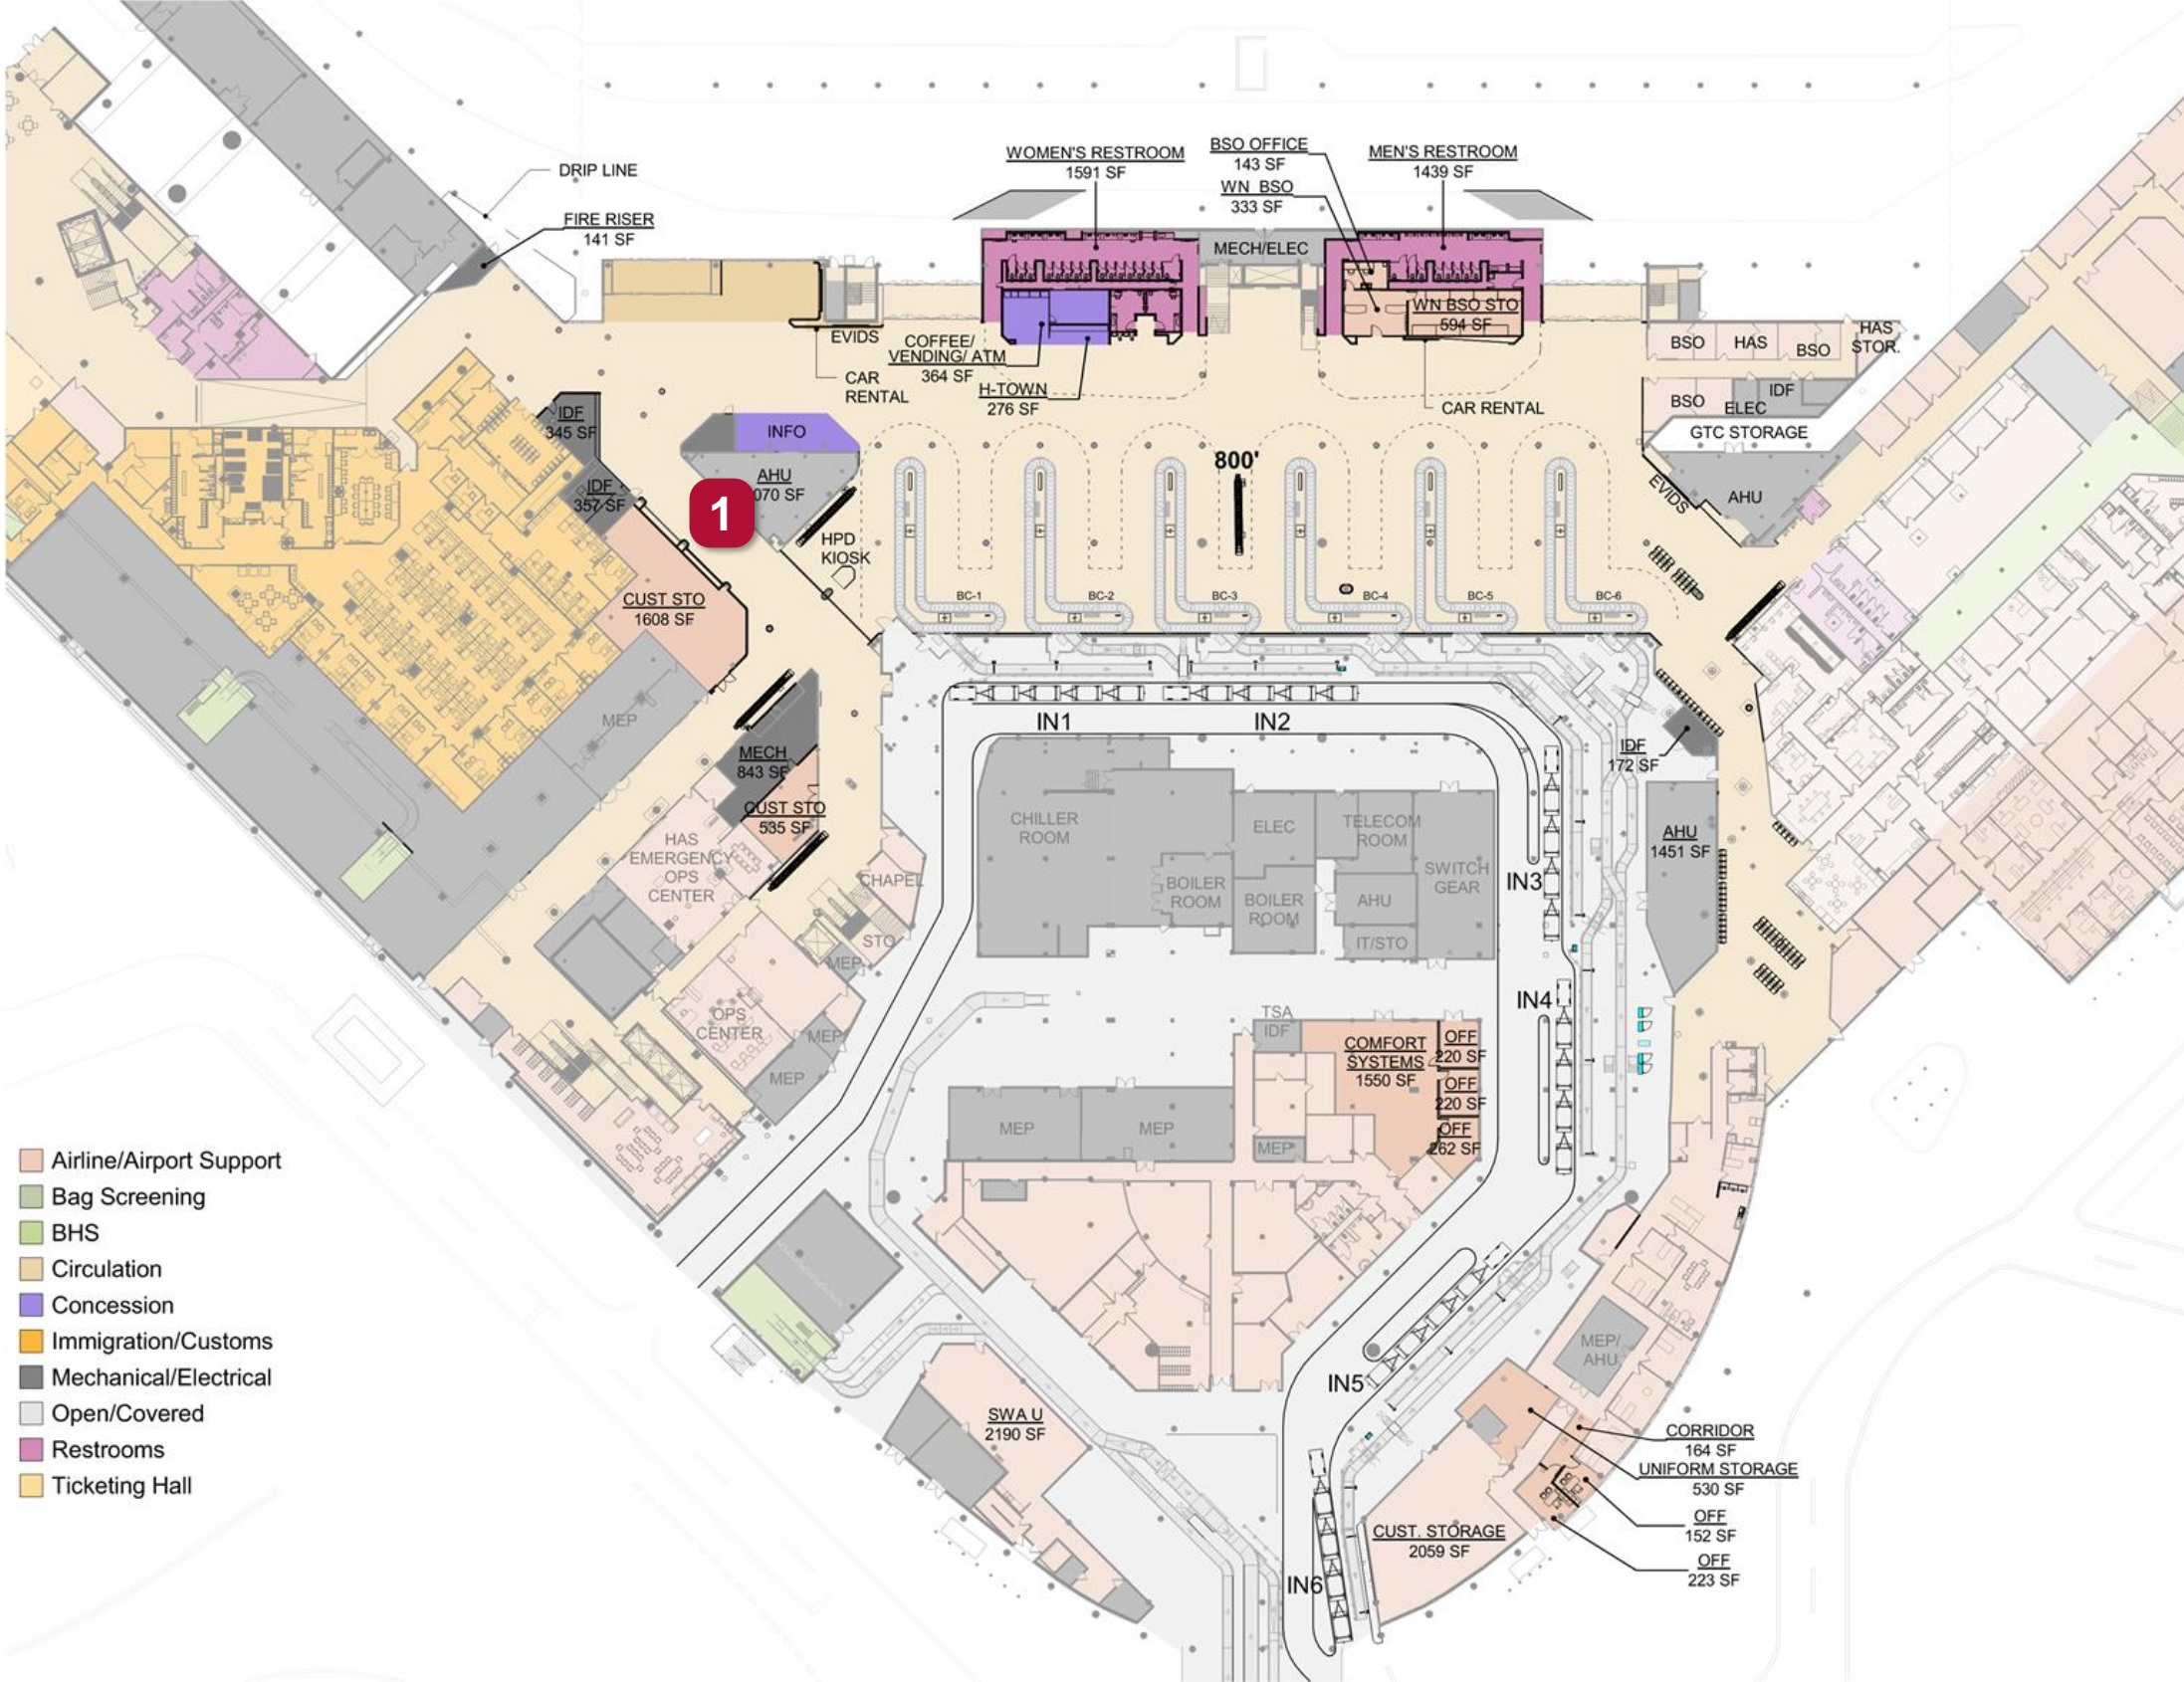

HOU – WEST CONCOURSE EXPANSION

Design Update

Focus Group Updates

1. Artwork Vitrines

As passengers make their way from their gates to the bag claim and exits, the main corridor provides opportunities for art display cases. Glass protected displays offer space for wall hung or three dimensional pieces. Butt joined glass provides minimal visual obstructions through the glass and a large 4'x8' opening to each case allows works both large and small. Inspiration for this work is "Space City" to connect to celestial designs of the bag claim feature wall and passenger canopy.
